

Public Information Update

Tuesday, June 03, 2020

We absolutely do not condone Police brutality; however, we do still need to remain vigilant on protecting our Community.

We would ask our community members to be mindful and if anyone did attend the protests in major metropolitan areas, they should go get tested for COVID-19 just in case, so we keep minds at ease and our Community safe.

We have proven that hard work, diligent practices, and discipline work. Our number one objective continues to be the health and wellbeing of our Community and to limit the Community spread of COVID-19.
