

- On August 25, the CDC revised its website to indicate that asymptomatic people who have been in close contact of a person with COVID-19 do not necessarily need a test, *“unless you are a vulnerable individual or your health provider or State or local public health officials recommend you take one.”*
- At this time, the Wisconsin Department of Health Services (DHS) continues to recommend that *ALL* persons who were in close contact with a person infected with COVID-19 (defined as being within 6 feet for at least 15 minutes) should be tested, regardless of symptoms.
- The Stockbridge-Munsee Health and Wellness Center is in agreement with the Wisconsin Department of Health Services (DHS) that *ALL* persons who were in close contact with a person infected with COVID-19 (defined as being within 6 feet for at least 15 minutes) should be tested, regardless of symptoms.

The Stockbridge-Munsee Health and Wellness Center requires a COVID-19 test for all close contacts at the beginning of their 14-day isolation period
