July 19, 2022

The Stockbridge-Munsee Community Tribal Historic Preservation Office (THPO) has adopted a fully electronic project management system for all incoming Federal Section 106 and NEPA reviews as well as state and local consultation requests. The process for submitting project reviews is as follows:

- Project reviews and associated documents must be sent electronically (emailed) to: thpo@mohican-nsn.gov. Electronic submission through this account will be our only mode for reviews. We cannot guarantee that hard copy sent by mail or delivery service will be reviewed.
- Unless closely related in time and space, submissions for project review must be sent separately and will be evaluated on an individual basis.
- Project notices received will be assessed by a member of the Stockbridge-Munsee Community THPO staff. Responses may include requests for additional time or more information, recommendations for project operating procedure, and potential interest, concerns and/or comments regarding a determination of project effect.
- If no response is forthcoming within the consultation window of 30 calendar days, this should not be construed as a concurrence, but merely that the Stockbridge-Munsee's THPO has "no comment" regarding the proposed action or undertaking.

Thank you for adhering to these procedures.

Sincerely,

Jeff Bendremer, Ph.D., RPA
Tribal Historic Preservation Officer
