## **Addressing Climate Change with Indigenous Knowledge**

**Thursday, October 27, 2022**

**3:00 PM EST**

*Hosted by the Pacific Region*

*Training & Technical Assistance Center*

[Register Here](#)

Indigenous leaders across the country are using their cultural connection to the land to rewrite the narrative on addressing climate change. This hour-long webinar will open the space for two Indigenous experts to weigh in on why climate change is best approached with a Native perspective by Indigenous community members.

# Healing Our Native American Veterans

**Thursday, November 3, 2022**

**3:00 PM EST**

*Hosted by the Eastern Region*

*Training & Technical Assistance Center*

[Register Here](#)

There are more than 140,000 Native American and Alaska Native veterans in the U.S. Healing for these military veterans is critical for restoring balance with their spiritual, mental, and physical being. This healing is also crucial in helping veterans transition back to their families and communities. This webinar will highlight community projects that are helping Native veterans heal and successfully reintegrate into their families and communities.
