The Stockbridge-Munsee Community (“Tribe”) has adopted a plan under Public Law 102-477 to administer its own Education, Employment, and Training programs. The Tribe also provides funding for these programs to assist students who might not otherwise be assisted. The Tribe’s Education and Career Services Department (“Department”) has primary responsibility for the implementation of these programs.

This handbook provides guidance on how the Tribe operates its higher education and career services programs. Some of the requirements in this handbook are needed in order to meet requirements under federal law; others are designed to meet the special circumstances of members of this community. The goal of the handbook is to ensure the Tribe’s programs, including the distribution of funds, are implemented in a fair and equitable manner.

In order to keep this handbook a manageable size, it does not cover every requirement associated with these programs, nor can it cover every eventuality. Such issues will be handled in accordance with the Tribe’s overall approach of fairness and accountability in relation to the services provided. Please contact us if you have questions about something that is not clearly addressed before issues arise. Good luck with your plans.

HIGHER EDUCATION

Education Department’s mission is to offer lifelong educational opportunities for all members of the Stockbridge-Munsee Community. The Education Department is committed to providing educational programs, information advocacy and referral, including referral to different forms of financial assistance. The Department will also provide positive emotional encouragement and support that promotes personal growth, enrichment, empowerment, self-esteem, and provide in our cultural heritage, economic independence, and self-sufficiency. The Department will work in the community to provide educational avenues and to create a more positive environment for lifelong learning.

Along with information and other forms of support, the Tribe also offers limited funding opportunities for eligible students. As outlined in this handbook, such higher education funding is offered in the form of education grants that are subject to repayment if the student fails to satisfactorily complete the coursework.

We know that you will confront obstacles and experience challenges as a student but remember that you are our hope for a better future.

The Stockbridge-Munsee Education staff wishes you success in achieving your academic endeavors. It is our commitment to assist you in your higher educational goals. We welcome any questions and concerns that may confront you throughout your education venture.

Students with completed files will be reviewed and awarded in date of order. The Education Department will notify students with a letter showing the approved Tribal grant amount. Upon receipt of this letter students are required to sign and return to the Education Department.

The intent of the Stockbridge-Munsee Higher Education award is to provide “supplemental” educational grant monies that are used primarily for tuition and book expenses. It is not intended to replace annual income or meet total personal/household expenses.

The award is based on the standard school expenses as determined by each individual college/university. Students will receive funding for a limited number of semesters to attain their education goals as follows:

Degree seeking:	Funding Level:	Lifetime # of Credits
Undergraduate		
Vocational/Technical (Associate, Certificate, Apprenticeship, License)	\$368/credit	48 credits

Graduate		
Master	\$1,035/credit	48 credits*
Advanced Degree	\$1,035/credit	60 credits + up to 48 of unused graduate credits

*Students enrolled in a master degree program that requires more than 48 credits to reach degree attainment per the school's policies may be funded for up to 60 lifetime credits with approval of the Higher education Office.

Carrying more than 12 credits per semester does not qualify a student for any additional funding. Credits must be identified in the Student's Academic Plan and signed by Advisor.

NOTE: Individuals demonstrating a physician-documented illness/injury may be considered for one additional semester beyond the 10 full-time semester limit if additional schooling is necessary to become re-employable after the illness/injury. The Stockbridge-Munsee Education Board will make a determination in such cases.

Debt Waiver - Medical

The students(s) must first file an appeal with the school for any refunds. Waiver of debt must be requested prior to the conclusion of the semester following the medical emergency. The Education Board will base their decision on the school's recommendation, any refunds returned, an appeal letter from the student stating why he/she is unable to complete the semester along with the individual's physician-documentation on their medical status. The Education Board will not consider waivers prior to the 2012-13 school year.
